

# SMITH CIVIL

PLUMBING • CIVIL INFRASTRUCTURE • EARTHMOVING

## CAPABILITY STATEMENT

### Smith Civil Pty Ltd

ABN 66 661 463 083 | ACN 661 463 083

3 Gordon Avenue, Griffith NSW 2680

Operating across NSW &amp; VIC

### Harry Smith — Director

Licensed Plumber — NSW Contractor Licence No. 373477C

VIC Plumbing Licence No. 130270

0437 853 792 | [harry@smithcivilptyltd.com](mailto:harry@smithcivilptyltd.com)

## WHO WE ARE

Smith Civil Pty Ltd is a NSW and VIC-licensed civil plumbing and earthmoving contractor delivering infrastructure packages for Tier 3 head contractors, developers and utilities. We specialise in below-ground civil plumbing, site drainage, and civil earthworks — scoped, programmed and delivered to head contractor standards on live, multi-trade sites.

We do not operate in the residential or domestic maintenance market. Our crews and plant are structured around project-scale civil packages, and we work directly within head contractor programmes, ITPs and site safety systems.

## CORE CAPABILITIES

### Civil Plumbing & Infrastructure

- Sewer, water and gas connections — reticulation, trunk mains and service connections
- Fire hydrant systems — ring mains, hydrant stand pipes and booster assemblies
- Poly / fusion welding services
- Stormwater infrastructure — pipe drainage, concrete V-drains and on-site detention (OSD)
- Subsoil drainage, OSSM / effluent field systems and septic installations

### Civil Earthworks & Concrete

- Bulk and small-scale earthworks — cut/fill, site preparation and groundworks
- Trenching, pier and pad excavation
- Sub-grade preparation and pavement/hardstand construction (DGB20 and similar)
- Access roads, hardstands and vehicle turnaround areas
- Formwork and structural concrete placement

## CAPACITY & COMPLIANCE

- Core team — 4 personnel, directly supervised by the director on every project
- Plant — 6 tonne CAT excavator, telehandler and skid steer owned; additional plant and specialist subcontractors engaged through established hire and trade partners to match project scale and programme
- Scalable delivery model — crew, plant and subcontract resourcing flexed up or down as project size and programme require
- Public liability insurance — \$20,000,000
- WHS — fully current WHS management system, managed and audited through Citation HR's WHS portal, covering SWMS, inductions and site documentation
- Workers Compensation — covered through icare (NSW)

## RECENT PROJECTS

### Green Gold — Coleambally Solar Farm, NSW

- Fire tank hardstand slab — 250m<sup>2</sup> concrete slab (80m<sup>3</sup>), excavated to 600mm and sub-grade built out in DGB20
- Solar farm access road construction, including light and heavy vehicle turnaround points

### Dorothy Waide Children's Centre, NSW

[smithcivilptyltd.com](mailto:smithcivilptyltd.com) | [harry@smithcivilptyltd.com](mailto:harry@smithcivilptyltd.com) | 0437 853 792

- Full stormwater upgrade — new stormwater infrastructure, concrete V-drains and improved site drainage

### Agright Pacific — Poultry Infrastructure

- Hydrant ring main system across 4 poultry farms — 8.2km of fire main piping, 128 hydrant stand pipes, 4 booster assemblies
- Supply and installation of 14 septic tanks / OSSM systems and external drainage
- Internal water supply systems for 44 poultry sheds
- Service trenching and pier excavation for an on-site solar farm / BESS

### R & DG Sanday

- Pier excavation, site preparation and slab excavation

### Baiada / Griffith City Plumbing

- Service trenching and installation of fire main, water and gas supply across 2 poultry farms — 2.7km total

## WHY SMITH CIVIL

- Dual-state licensed — able to mobilise across **NSW and VIC** without sub-licensing delays
- Director-led — direct access to ownership on every project, no account-manager layer
- Proven on live, multi-trade civil sites working to head contractor programmes and ITPs
- In-house capability across plumbing, earthworks, concrete and structural steel — fewer interfaces, fewer delays
